To Whom It May Concern:

It is my pleasure and highly I recommend Commerce Bank to any potential client. Everyone from Commerce bank is extremely personable!

As you know today's economy has put an even heavier burden on our healthcare industry. We are excited to use Commerce Banks automated control pay program as a viable resource to help reduce increasing overhead expenses. Additionally, the receiving of revenue share checks to reinvest in capital equipment to provide the latest in technology for our patients.

The initial set up is quick and is as easy as a "csv" file. The implementation team is pleasant, friendly and easy to work with.

If there are any file transmission issues, the team stays patient and happily assists with file errors until they are resolved.

We are looking forward to growing our vendor list and increasing our ROI with Commerce Bank. If you have any specific questions, please feel free to contact me at teharrison@bartonhealth.org

Sincerely,
